EL NIÑO VENTURES VESTS WITH 50% INTEREST IN BATHURST CLAIMS

June 4, 2008, Vancouver, BC – El Niño Ventures Inc. (“El Niño” and “the Company”) (TSX.V: ELN; Frankfurt: E7Q) is pleased to announce that it has vested with 50% interest in 1,902 mineral claims located within the Bathurst Mining Camp. The remaining 50% interest is held by Xstrata Canada Corporation – Xstrata Zinc Canada Division “Xstrata”. The claims include historical base metal resources (not compliant with the CIM NI 43-101).

The 1,902 mineral claims in which El Niño owns a 50% interest host a total of seven significant Pb/Zn occurrences distributed over the eastern and western part of the Bathurst Mining Camp. These occurrences were discovered either by conventional prospecting in the early days or more recently by geology and various types of geophysical surveys. These occurrences have been subject, in the past, to important exploration work by Xstrata Zinc Canada looking to identify world class Pb/Zn deposits.

Doug Clark, P. Geo., El Nino Ventures' is the Qualified Person, as defined under National Instrument 43-101, responsible as El Nino Ventures representative during the afore-mentioned exploration program. Doug Clark was contracted by El Nino Ventures from August 2006 until March 2008 and was intimately involved in all aspects of the program. The qualified person has not done sufficient work to classify the historical estimate as current mineral resources, the issuer is not treating the historical estimate as current mineral resources and the historical estimate should not be relied upon.

Jean Luc Roy, President of El Nino states: "As stated above we have selected 1,902 claims on which to earn a 50 percent interest. All these claims are in areas where some historical base metal occurrences have been identified or are in close proximity to existing or past operations in the Bathurst Mining Camp. We are now in discussions with Xstrata on how to move these properties forward in the future".

About El Niño Ventures

El Niño Ventures is a junior exploration company, whose corporate objective is to revisit former mining regions and apply the latest technologies to advanced stage exploration targets. El Niño has an option to acquire a 70% interest in over 350 square kilometers in the world renowned copper belt in the Democratic Republic of Congo ("DRC"). In addition to our copper and cobalt projects in the DRC, the Company has its project with Xstrata on the Bathurst Mining Camp and has started drilling on its Ireland properties.
